DEM CRATIC NATIONAL CONVENTION. BALTIM OR, Md., June 23d, 1860 Sir: I am directed by a vote of the Demo you have been this day manimonsly nominate by it as the cambrate of the Democratic party for the office of President of the United States and in their behalt to request you to accept the normation. I beg heave, at the same time, to onclose you a copy of the resolutions adopted by the Convention as their political platfarm of which the party stands. I have the honor to he,

C. CUSHING, President. HOD. JUHN C. BRECKINGIDGE.

WASHINGT IN CITY, July 6, 1860. Dear Sir: I have your letter of the 23d oftimo, by which I am efficially informed of my nomination for the office of President of the United States by the Democratic National Canvention lately assembled at Billimare.

The circumstances of this nomination will justify me in referring to its personal aspect. I have not saught nor desired to be placed before the country for the office of President

When my name was presented to the Convention at Cherleston, it was withdrawn by a friend in abedience to my expressed wishes. My view had not changed when the Convention reassem bled at Baltimore, and when I heard of the di Ierences which occurred there, my indispova-s was confirmed, and expressed to many Without discussing the occurrences which pre

orded the numina ion, and which are or snot will be well understood by the country, I have only to say that I approved, as just and neces tary to the preservation of the national urganic zonom and the sacred right of representation, the a ton of the Convention over which you con timed to preside; and, thus m proving it, and having resolved to sustain it, I teel that it those not to come me to select the position I shall occupy, for no should trom the responsibilities of the post to which I have here assigned. Ac cordingly, I accept the nomination from a sense of this line-long Democracy, his ripe of public duty, and, as I think, uninfluenced in experience, his great abilities, and the large of public dity, and, as I think, unfufficeed to any degree by the abutements of undivious

I avail myself of his opension to say that the confidence in my personal and public character. implied by the action of the Convention, all always be gratefully remembered; and hals ton just, also to my own feelings, to express my gratification at the association of my name with that of my triend General Lane, a parriot and a soldler, whose great services in the field and to connect, suittle him to the great ade and confi

dence of his countrymen. The resolutions adopted by the Convention have my cordul approval. They are just to all parts of the Union-ro all our citizens, native and hath al zed-and they form a nobte policy for any administration.

The question touching the rights of person and property, which have of late been much dicusted, find in these resolutions a Constitution at solution. Our Union is a confidency of equal severeign States, for the purpose entime ated in the Federal Consiliation. Whatever the common government holds in trust for all the States, must be enjoyed equally by each. It can trob the Teirbones in tinit for all the States Nothing less than sovereignty our destroy Impair the rights of persons or property. The Territorial governments are subarditioned and temporary and but soversign; being they can not desired or impair the lights of persons of property. While they combine to be Territoria, they are under the control of Congress, but the Constitution nowhere conters on an briol of the Federal Government the power to discilulinate against the rights of this State or the property of their citizens in the Territor ries. It follows that the citizens of all th States may enter the Territories of the Union with their projectly, of whatever kind, and en joy h during the Territorial condition, without let or bluderance, either by Congress or by the

Subortinate territorial governments

These principles flow directly from the absence of sovereigncy in the Territorial governments and from the equality of the states—in deed they are essential to that equality which is and ever has been, the cital principle of uni Constitutional Union. They have been settled legislatively -- settled judicially -- and are one taim d by right reason. They rest on the rock of They will preserve the Constitusion-they will preserve the Union

It is life to attempt to smother these great is sions as "Intervention," "Congressional slave cone," and the like, and will penetrate to the real questions involved. The triends of Con mated Breckinnings? We are free to say the in regard to property in the Territories. They gress or by a Territorial Legislature cliber \$. . . fied by the highest judicial tribunal in the Union) the plain curv of the Federal government in al the citzens of all the States, the enjoyment of their property in the common Territories. The only logical answer to this would seem to be to chain sovereign power in the Territories, or to deny that the Constitution recognizes property in the services of negro slaves, or to dety that Union should read:

the attention of independent, thinking Demo through clouds and passion, compels the conner crais everywhere, who are unwilling to be ried to meet the issue. There is no evasive middle to the cor of political back-ters, sectional agita ground. Already the signs multiply of a land tors, and sports hunters, to the following patrioric at mal growing party, which denies that under the Constitution, or by any other law, slave property con exist; and ultimately the struggle must bound thousands of Democrats in every State. In Come between this party and the National De like Union who will think and act with our cor mocracy, sustained by all the other conservative respondent: elements of the Union.

I think it will be impossible for a candid mind to discover hostility to the Union or a trint of sectionalism in the resolutions adopted by the The Constitution and the Union like a broad foundation underneath our whole lation of State equality, and that as long as this disorganized condition. I would not vote with great principle lies been respected, we have been a band of Angels if they were either for the casy to persuade the country that resolutions are that knows no North or South. I will vote with Meeting In Louisville last week: sectional which command the support of a ma just you the States, and are approved by the bone way sectional. My vote shall be cast for a Na mass of conservative opinion everywhere with of Tennessee. If I know invest, t am for the

history to punse and solemnly assert the true character of this Government. A memorable in statue occurred in the atruggle which ended the civil recolution of 1800. The Republicans of that day, like the Democrats of this, were st g ma 12ed as disamonists, but they nobly conducted the centest under the Constitution, and saved our and all friends of Breckinridge & Line are worn pushical system. By a like Constitutional strug ed not to grost Douglas & Johnson, as neither gle it is intended now to assert and establish equality of the States as the only basis of Union er, nor for the debts of the old firm. and peace. When this object, so national, so et neitutional, so just, shall be accompushed, the last cloud will disoppear from the American sky, and with common liming and lieuits, the States a general "Squatter Sovereignty" business. Or and the prople will unite to develop the resources deta from the Northwest promptle attended to of the whole country, to bent it together with the bonds of Intercourse and brotherhood, and to im

ske the slare of hot words and preflorate aochartlons. Above all, I venture humbly to hope that Divine Providen e, to whom we owe our or gin, our growth, and all our prosperity, will coinger, foreign and domestic.

Scrofula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

their children."

Its affects commence by deposition from the blood of corrupt or ulccrous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or arc aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an altorative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the eystem from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as EUUPTIVE and SEIN DISEASES, St. ANTHONY'S FIRE, ROSE, OF ENTSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SALT RHPUN, SCALD HEAD, RINGWORK, RHEUMATISM, STPHILITIC and MERCURIAL DIS EASES, DROPST, DYSPERSIA, DEBILITY, and, indeed, all Complaints arising from Vitta-TED ON IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarssparilla is to purify and regenerate this vital fluid. without which sound health is impossible in contaminated constitutions.

THE UNION TICKET IN MISSOURI.-We are much pleased to learn from the Missouri papers that ille lions, Sam'l M. Brecklininge and Uile Wright of "t Louis second a hearty support to he Union ticket. They were announced to address the Union mass meeting at St Loui last Saturday. These distinguished gentlemet are Union men of the first water. Nothing habeen able to evduce them from their alleglance to conservative principles. Living lina State where in times past ton much heed has been given to extreme political opinions, they have remained steadfast. Judge Brockluridge, though a joung man, has more shiller and sounder polities than his lucky cousin of Kentucky, at present the entepaw of Yancey & Co. WANTED. GOOD COOK for the balance of the year. Apl ly at this office. [March 21, how.

The proprietors and manufacturers of HOS TETTER'S CELEBRATED STOMACH BIT PERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a repu tation herctofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bit tors for the last year amounted to over a half inillion bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare nedicinal properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready as all times to give testimonials to its efficacy in all cases of stomachic dorangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum peting the qualities of the Bitters, but a solid estimation of an iuvaluable medicino, which i destined to be as enduring as time liself.

Hostetter's Stomach Bitters have proved

a Godaend to rogions where fever and agne-and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bittors" are a certain cure for the Dyapopala and like diseases, is to the proprietors a source of un alloyed pleasure. It removes all morbid matter from the stom ch, purifies the blood, and imparts renewed vitality to the nervous system g ving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs mild y but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic and rejuvenating generally. We have the cvidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach dorangements and general debility; acting under the advice of physicians, they have abandoned the advice of physicians, they have abundoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mothe, and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxlety for her infant. Should the period of maternity arrive during the summer eeason, the wear of body and mind is generally aggravated. Here then, is a necessity for a stimulant to recupe rate the energies of the system, and enable the mother to bear up under her exhausting trish and responsibilities. Nursing mothers generally prefer the Bitters to all other invigora tors that receive the endorsement of physi clans, because it is agreeable to the taste as well as certain to give a permanent increase

All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoss dyscntery, indigestion, loss of appetite, and all disenses or derangements of the stomach. superannuated invalids, persons of scdentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos Ictter's Celebrated Stomach Bitters a trial. CAUTION.—We caution the public against
